

B & H
Herefords

1st Annual
Bull Sale

April 2, 2016
Artesia, NM

B&H Herefords

1st Annual Production Sale

Saturday, April 2, 2016

Bidding Starts at 10:30 a.m.

Lunch Available

Location: Burnett Ranch Feeds Arena

7255 Roswell Hwy.

Artesia, NM

SELLING:

**40 Registered Hereford Bulls
7 Registered Angus Bulls
5 Commercial Hereford Bulls
50 Commercial Heifers**

Pre-Sale:

Bulls available for viewing any time prior to sale day. Just call!

Sale Format:

Low-pressure, no stress format.

Minimum bids established. From 10:30am-1:00pm buyers will write their buyer # on the sheet of the lot they are interested in. After 1:00pm, any lot with more than one number will be bid off only between the buyer #'s written down. Any lot with only one buyer # will go to that buyer for the minimum bid.

Health:

Bulls will be fertility and Trich tested.

Ready for immediate delivery.

ALL VIRGIN BULLS.

Guarantee:

Bulls guaranteed to be breeders. If, within the first breeding season, a bull is identified as a non-breeder, we will give a credit towards another bull.

Welcome to B & H Herefords!

Find us on Facebook!

This is your invitation to attend our First Annual Sale on April 2, 2016. This year marks the 20th Anniversary of the founding of B&H Herefords, stemming from the Harvey Hereford Ranches Dispersion on May 11, 1996. We are pleased to welcome you to inspect our sale offering of yearling Hereford and Angus bulls, as well as commercial yearling Hereford, Angus, and Black Baldy heifers.

From the beginning of our operation, we have sought to use herd bulls with excellent muscling, thickness, and capacity, from sound, proven bloodlines, with excellent fertility, and from outstanding dams. We have never chosen single-trait selection and seek sires with balanced EPD's that will produce cattle that will excel under virtually any ranching environment.

All of the cattle are raised under real-life, commercial ranching conditions, either at Pinon, NM or on the San Augustine Ranch at Organ, NM. Both of these ranches are at an altitude of approximately 6000 feet with big, rocky, native New Mexico grass pastures.

We place fertility foremost and insist that our cows have a calf every year, with a limited breeding season. Our heifers are all bred as yearlings to calve as two-year-olds. In order to survive under our harsh New Mexico range conditions, with great fluctuations in grass and moisture, our cattle are bred for moderate frames, sound structure, excellent feed efficiency and conversion. They have stout, rugged constitutions, so as to function and perform virtually anywhere and under any conditions. We cull ruthlessly for sound, trouble-free udders, and calves are raised strictly on their mothers' milk and grass without any creep feed. They are weaned in big native grass traps, with only enough supplement to ensure good, steady growth without extreme yearling weights. We seek to maintain soundness, ruggedness, and usefulness in our bulls to the best interest of our customers.

We look forward to seeing you on sale day and please give us a call with any questions you may have.

EPD GUIDE

CED - Calv. Ease Direct	SC - Scrotal Circ.
BW - Birth Weight	MCW - Mature Cow Weight
WW - Weaning Weight	REA - Ribeye Area
YW - Yearling Weight	MB - Marbling
MILK - Maternal Milk	CHB - Certified Hereford Beef

BW	Actual Birthweight
WW	Adjusted Weaning Weight
WWR	Weaning Weight Ratio

REGISTERED ANGUS SALE BULLS...

In 2005, we started by buying our base cow herd directly from Sitz Angus and Donny Wirz. From there, we started raising angus cattle with a strict criteria of fertility, structure, efficiency, and production. These cattle are treated exactly the same as all our other commercial cattle and must perform. We believe in raising cattle that fit their environment rather than trying to make the environment fit the cows. These bulls are range ready and willing to work.

Terms and Conditions

Bidding

All cattle or genetic material (embryos, semen, or any DNA material) offered for sale will be sold to the highest bidder. The person in charge of the sale (seller, auctioneer, or sale manager whether live public auction or internet auction) will settle any disputes with regards to bids, and his/her decision will be final.

Announcements

Corrections or additions of any information in the sale catalog will be announced from the auction stand or on the internet site (in the case of internet auctions) prior to the selling of the animal or genetic material. Such announcements will take precedence over any printed material. Animals that are carriers of known genetic abnormalities will be either so indicated in the sale catalog, announced from the auction block, or both. It is the responsibility of the seller in a public auction to provide the sale manager, in writing, prior to the sale, a listing of corrections of information printed in the sale catalog.

Payment Terms

All sales are for immediate cash settlement unless other credit arrangements have been established between buyer and seller prior to the sale.

Buyer's Risk

The animal or genetic material becomes the property and risk of the buyer as soon as sold, but it shall be the responsibility of the seller to see that animals are properly cared for, free of charge to purchaser, until delivered to buyer or until the expiration of 24 hours after the sale, whichever comes first.

AHA Expected Progeny Differences (EPDs)

Expected progeny differences provided to Herford breeders enrolled in the AHA TPR program are statistical predictions or estimates of expected performance of future progeny, not guarantees of performance.

Health

All animals will be eligible for interstate shipment as required by federal regulation. Buyers should be aware of their own state's specific health requirements. All bulls will have a valid health certificate and negative Trich test.

Certificate of Registration

B&H will transfer registration certificates to buyers.
